

<b>EXECUTIVE SUMMARY</b> .....	<b>ES-1</b>
<b>1.0 INTRODUCTION</b> .....	<b>1-1</b>
1.1 Overview.....	1-1
1.2 Purpose.....	1-1
1.3 Background.....	1-1
1.3.1 Goals of the OBMP Water Supply Plan.....	1-2
1.3.2 OBMP Groundwater Recharge Component.....	1-2
1.4 Methodology.....	1-3
1.4.1 System Inventory and Data Review.....	1-4
1.4.2 Modeling.....	1-4
1.4.3 Development of Implementation Plan.....	1-4
1.5 Abbreviations/Acronyms.....	1-5
1.6 References.....	1-6
<b>2.0 ISSUES AFFECTING GROUNDWATER RECHARGE</b> .....	<b>2-1</b>
2.1 Overview.....	2-1
2.2 Chino Basin Geology.....	2-1
2.3 Groundwater Management Zones.....	2-2
2.3.1 Management Zone 1.....	2-2
2.3.2 Management Zone 2.....	2-2
2.3.3 Management Zone 3.....	2-3
2.3.4 Management Zone 4.....	2-3
2.3.5 Management Zone 5.....	2-4
2.3.6 Basins Included in the Phase II Master Plan.....	2-4
2.4 Current and Future Water Demand.....	2-4
2.5 Sources of Groundwater Recharge.....	2-5
2.5.1 Storm Water.....	2-5
2.5.2 Recycled Water.....	2-13
2.5.3 Imported Water.....	2-14
<b>3.0 EXISTING SYSTEM</b> .....	<b>3-1</b>
3.1 Overview.....	3-1
3.2 Descriptions of Existing Basins.....	3-1
<b>4.0 IMPROVEMENTS TO EXISTING SYSTEM</b> .....	<b>4-1</b>
4.1 Overview.....	4-1
4.2 Recharge Capacity and Proposed Recharge Mix at Each Basin.....	4-1
4.3 Basis of Design.....	4-3
4.4 Descriptions of Improvements to Existing Basins.....	4-4
4.4.1 Brooks Street Basin.....	4-7
4.4.2 Montclair Basins.....	4-9
4.4.3 Seventh and Eighth Street Basins.....	4-11
4.4.4 Upland Basin.....	4-13
4.4.5 Ely Basins.....	4-15

4.4.6	Etiwanda Spreading Basins .....	4-17
4.4.7	Hickory Basin .....	4-19
4.4.8	Lower Day Creek Basin .....	4-21
4.4.9	San Sevaine Basins 1, 2, and 3 .....	4-23
4.4.10	San Sevaine Basins 4 and 5 .....	4-25
4.4.11	Turner Basin No. 1 .....	4-27
4.4.12	Turner Basins Nos. 2, 3, and 4 .....	4-29
4.4.13	Victoria Basin .....	4-31
4.4.14	Banana Basin .....	4-33
4.4.15	Decluz Basin .....	4-35
4.4.16	Etiwanda Conservation Ponds .....	4-37
4.4.17	Jurupa Basin .....	4-39
4.4.18	Wineville Basin .....	4-41
<b>5.0</b>	<b>DEVELOPMENT OF NEW RECHARGE AREAS .....</b>	<b>5-1</b>
5.1	Overview .....	5-1
5.2	Development of New Basins .....	5-1
5.2.1	College Heights Basin .....	5-2
5.2.2	RP3 Recharge Basins .....	5-4
5.3	Additional Recharge Potential .....	5-6
5.4	On-Site Recharge .....	5-6
5.5	Injection Wells .....	5-7
<b>6.0</b>	<b>IMPLEMENTATION PLAN .....</b>	<b>6-1</b>

**LIST OF TABLES**

ES-1	Summary of Proposed Basin Improvements for Storm Water and Imported Water Recharge
ES-2	Recharge Capacity and Costs
1-1	Goals of the OBMP
2-1	Precipitation and Subsequent Storm Water Produced
2-2	Potential Sources of Recycled Water
2-3	Metropolitan Connections within the Chino Basin
2-4	Spreading Facilities for MWD Replenishment
3-1	Existing Sites for Possible Use as Recharge Basins
4-1	Recharge Capacity and Proposed Recharge Mix at Each Basin
4-2	Summary of Proposed Basin Improvements for Storm Water and Imported Water Recharge
4-3	Basin Recharge Capacity and Costs
4-4	Improvement Costs for Brooks Street Basin
4-5	Improvement Costs for Montclair Basins
4-6	Improvement Costs for Seventh and Eighth Street Basins
4-7	Improvement Costs for Upland Basin
4-8	Improvement Costs for Ely Basins
4-9	Improvement Costs for Etiwanda Spreading Basins
4-10	Improvement Costs for Hickory Basin
4-11	Improvement Costs for Lower Day Creek Basin
4-12	Improvement Costs for San Sevaine Basin Nos. 1, 2, and 3
4-13	Improvement Costs for San Sevaine Basin Nos. 4 and 5
4-14	Improvement Costs for Turner Basin No. 1
4-15	Improvement Costs for Turner Basin Nos. 2, 3, and 4
4-16	Improvement Costs for Victoria Basin
4-17	Improvement Costs for Banana Basin
4-18	Improvement Costs for Declez Basin
4-19	Improvement Costs for Etiwanda Conservation Ponds
4-20	Improvement Costs for Jurupa Basin
4-21	Improvement Costs for Wineville Basin
5-1	Recharge Capacities and Costs for New Basins
5-2	Improvement Costs for College Heights Basin
5-3	Improvement Costs for RP-3 Recharge Basin

**LIST OF FIGURES**

- ES-1 Location of Stormwater Retention and Conservation Basins
- ES-2 Population, Housing and Water Demand Projections
- ES-3 Double Mass Curve of Rainfall at San Bernardino vs. Storm Water Measure below Prado Dam
- ES-4 Double Mass Curve of Rainfall at San Bernardino vs. Storm Water Produced in the Chino Basin and Measured Below Prado Dam
- ES-5 Potential and Priority Groundwater Recharge Areas
- ES-6 Preliminary Implementation Schedule
  
- 2-1 Locations of Major Faults in the Chino Basin
- 2-2 Fall 1997 Groundwater Elevation Map
- 2-3 Management Zones of the Chino Basin
- 2-4 Population, Housing and Water Demand Projections
- 2-5 Land Use in Chino Basin
- 2-6 Storm Water Discharge Time History for the Santa Ana River Below Prado Dam
- 2-7 Double Mass Curve of Rainfall at San Bernardino vs. Storm Water Measure below Prado Dam
- 2-8 Double Mass Curve of Rainfall at San Bernardino vs. Storm Water Produced in the Chino Basin and Measured Below Prado Dam
- 2-9 Imported Water Pipelines in the Chino Basin
  
- 4-1 Proposed New Metropolitan Turnouts and Turnout Expansions
- 4-2 Brooks Street Basin
- 4-3 Montclair Basins
- 4-4 7<sup>th</sup> and 8<sup>th</sup> Street Basins
- 4-5 Upland Basin
- 4-6 Ely Basins
- 4-7 Etiwanda Spreading Basins
- 4-8 Hickory Basin
- 4-9 Lower Day Basin
- 4-10 San Sevaine Basin Nos. 1, 2, and 3
- 4-11 San Sevaine Basin Nos. 4 and 5
- 4-12 Turner Basin No. 1
- 4-13 Turner Basin Nos. 2, 3, and 4
- 4-14 Victoria Basin
- 4-15 Banana Basin
- 4-16 Declez Basin
- 4-17 Etiwanda Conservation Ponds
- 4-18 Jurupa Basin
- 4-19 Wineville Basin
  
- 5-1 College Heights Basins
- 5-2 RP-3 Basins
  
- 6-1 Preliminary Implementation Schedule
