

Relative Change in Land Surface Altitude as Measured by InSAR March 2011 to January 2017

□ InSAR absent or incoherent

Ground-Level Monitoring Network Facilities

- Ayala Park Extensometer
- Chino Creek Extensometer
- Wells Equipped with Transducers Calendar Year 2016
- Survey Benchmark

Ground-Level Survey Areas

- Managed Area
- Fissure Zone Area
- Southeast Area
- Central Area
- Northwest Area
- San Jose Fault Zone Area
- Northeast Area (Proposed)

- Areas of Subsidence Concern
- Flood Control and Conservation Basins
- Approximate Location of the Riley Barrier
- Fault (solid where accurately located; dashed where approximately located or inferred; dotted where concealed)
