

Annual Reports

Pursuant to the Stipulated Agreement, the Watermaster prepares an annual report that summarizes Watermaster activities, production by the Parties to the Stipulated Agreement, transfers and assignments among the Parties, replenishment and storage activities, Watermaster expenses, and an independent financial audit. The annual reports have evolved from a fairly simple document in the early years of the Watermaster to a more complex document following the adoption of the Peace Agreement in 2000 and the implementation of the Optimum Basin Management Program.
