

1 Declaration of Mark Wildermuth. The motion, with all of its exhibits and attachments
2 (Peace II documents), consists of hundreds of pages.

3 It is an extraordinary effort that was made to get the motion and all of the
4 documents filed before the end of October so the hearing on the motion could be held
5 before the end of the year. It is obvious that everyone involved in the "Peace II"
6 process has been working diligently to reach a consensus. The Court appreciates all
7 of your efforts.

8 Discussion

9 From the Court's review of the motion and attached documents, the question arises
10 whether or not there is sufficient time for a thorough consideration of the motion before
11 the end of the year. The Peace II documents include three documents that propose
12 amendments to the Judgment. Attachments "H" and "I" are proposed Judgment
13 amendments to address the problem of continued underutilization of Non-Agricultural
14 Pool rights by allowing additional transferability options. Attachment "J" is a proposed
15 Judgment amendment that will authorize Watermaster to initiate Basin Re-operation
16 strategy, which would include an additional 400,000 acre-feet of "controlled overdraft"
17 over and above the 200,000 acre-feet allowed by the Judgment in 1978.
18 Watermaster's motion indicates this proposed amendment is of foremost importance to
19 the Court's analysis. (Motion, p. 14, Ins. 1-3.) Review of these proposed Judgments is
20 brought under Paragraph 15 of the Judgment.

21 The Peace II documents also include a document that proposes amendments to
22 the Peace Agreement, Attachment "L." These amendments propose to (1) increase
23 the 50,000 acre-foot Peace Agreement cap on local supplemental water storage to
24 100,000 acre-feet, and (2) limit the availability of OBMP credits available through
25 Rules and Regulations Form 7, to activities whose purpose is to address subsidence
26 issues. Review of these proposed Peace Agreement amendments is brought under
27 Paragraph 31 of the Judgment.

28 ///

1 A number of other documents are included that propose a variety of miscellaneous
2 actions. These are to be reviewed under Paragraph 31 of the Judgment. These
3 documents include: (1) the Purchase and Sale Agreement for water from the Non-
4 Agricultural Pool; (2) the Supplement to the OBMP Implementation Plan; (3) the Peace
5 II Agreement; and (4) proposed amendments to Watermaster's Rules and Regulations.

6 Other documents have been submitted to assist the Court in its review. These
7 include the Project Description and two reports from Dr. David Sunding, analyzing the
8 economic consequences of the Peace II measures.

9 It is apparent that a considerable amount of time will be spent analyzing the Peace
10 II documents. Moreover, it appears that there are several distinct orders sought by
11 Watermaster in this filing (i.e., several motions have been combined in one). When
12 Watermaster sought Court approval of the Peace Agreement in 2000, three separate
13 motions were filed: one seeking Court approval of Watermaster's commitment to act
14 in accordance with the Peace Agreement; one seeking Court approval of the proposed
15 Judgment Amendments; and one seeking Court approval of amendments to
16 Watermaster Rules and Regulations.

17 The Court also is concerned that the technical review supporting Basin Re-
18 operation is not yet complete. The Draft Technical Report is "... labeled a draft report,
19 because we [Wildermuth Engineering] intend to continue to refine and develop our
20 analysis as we move forward over the next few months." (Declaration of Mark
21 Wildermuth, p. 9, Ins. 16-17.) "As of the date of this declaration, additional work is
22 being done to refine the model projections and this additional work will be included in
23 a final report." (*Id.* at p. 2, Ins. 14-15.)

24 Watermaster asserts that the technical review is an essential part of the motion.
25 "Perhaps the most important document that has been submitted to assist the Court is
26 the technical review of the Basin Re-operation strategy that has been prepared by
27 Wildermuth Environmental [Draft Technical Report]" (Motion, p. 10, Ins. 1-5.) Because

28 ///

1 of the significance of this document, the Court must see the final report before issuing
2 its ruling on the motion.

3 Finally, the Court is aware of the magnitude of its decision. Watermaster asserts
4 that the Basin Re-operation strategy "is the centerpiece of the Peace II measures"
5 (Motion, at p. 11, In. 4) and "has far reaching implications." (*Id.* at p. 6, In. 10.) "The
6 Basin Re-operation strategy is a very large project with significant consequences that
7 will have impacts for future generations. The initiation of a project of this magnitude
8 necessitates a high degree of caution." (*Id.* at p. 12, Ins. 8-10.) The Court agrees
9 wholeheartedly that the highest degree of caution must be exercised in considering
10 the implications of the Basin Re-operation strategy.

11 The Special Referee's report may allay some of the Court's concerns; However, the
12 Special Referee's report may engender additional concerns that the Court will want
13 addressed at the hearing on November 29, 2007. Therefore, it is suggested that Mr.
14 Wildermuth be present, prepared to be sworn, and take the witness stand to testify
15 regarding the concerns expressed herein and such further questions as may be raised
16 in the Special Referee's report, which, hopefully, will be filed prior to the November 29,
17 2007 hearing herein.

18 Order

19 The Court anticipates that a significant investment of time will be necessary to
20 carefully review the documents. The Court also is most interested in receiving the
21 Special Referee's Report. Finally, the Court has not yet received Wildermuth
22 Environmental's final technical analysis and report. For these reasons and because of
23 the importance of the decision, the Court *motu proprio* intends to continue the hearing
24 on Watermaster's motion, absent sufficient cause being shown by, among other
25 things, testimony of Mark Wildermuth elicited on November 29, 2007. To aid the Court
26 in its preparation for the November 29, 2007 hearing, a declaration by Mark
27 Wildermuth, showing all of the changes made in the final Technical Report or a red-
28 lined version of the report, would be helpful.

1 Therefore, any and all interested parties are hereby ordered to appear on
2 November 29, 2007, at 1:30 p.m. to show cause why the Court should not continue the
3 hearing on Watermaster's Motion for Approval of Peace II Documents to a mutually
4 agreed upon date in early 2008 or, in the alternative, be prepared to have Mr.
5 Wildermuth present to address the concerns of the Court as hereinbefore stated.

6 IT IS SO ORDERED.
